

PERKINS RD OVERPASS URBAN TRAIL

PERKINS RD OVERPASS URBAN TRAIL

PERKINS ROAD URBAN TRAIL BATON ROUGE, LA

The Perkins Rd. Overpass Urban Trail will provide Baton Rouge residents with direct access to the lively Merchant District. The design features native plantings tolerant of urban conditions, increased urban tree canopy, 41 delineated parking spaces, and accessible bike and pedestrian paths that safely lead users to the businesses underneath the overpass. The multi-use trail is lined with lighting and signage for safe use by bikes and pedestrians at all hours of the day. Retaining walls lining the overpass embankment and multi-use trail provide opportunities for future public art.
